

Why NGAV from Secureworks for Threat Prevention?

Secureworks®

Taegis™ NGAV

“With its solid performance, convincing detection capabilities against in-the-wild malware, SOC-ready console and feature set, Secureworks Taegis NGAV Add-On is a trustworthy addition to any IT security arsenal.”

— MRG EFFITAS

100% In-the-Wild Malware Samples Blocked

Financial Malware	100%
Spyware	100%
Ransomware	100%
Backdoors	100%
Other Malware	100%

“The Secureworks Taegis NGAV product blocked all in-the-wild samples, reaching a perfect 100% percent Pass score, earning the appropriate ITW certification badge.”

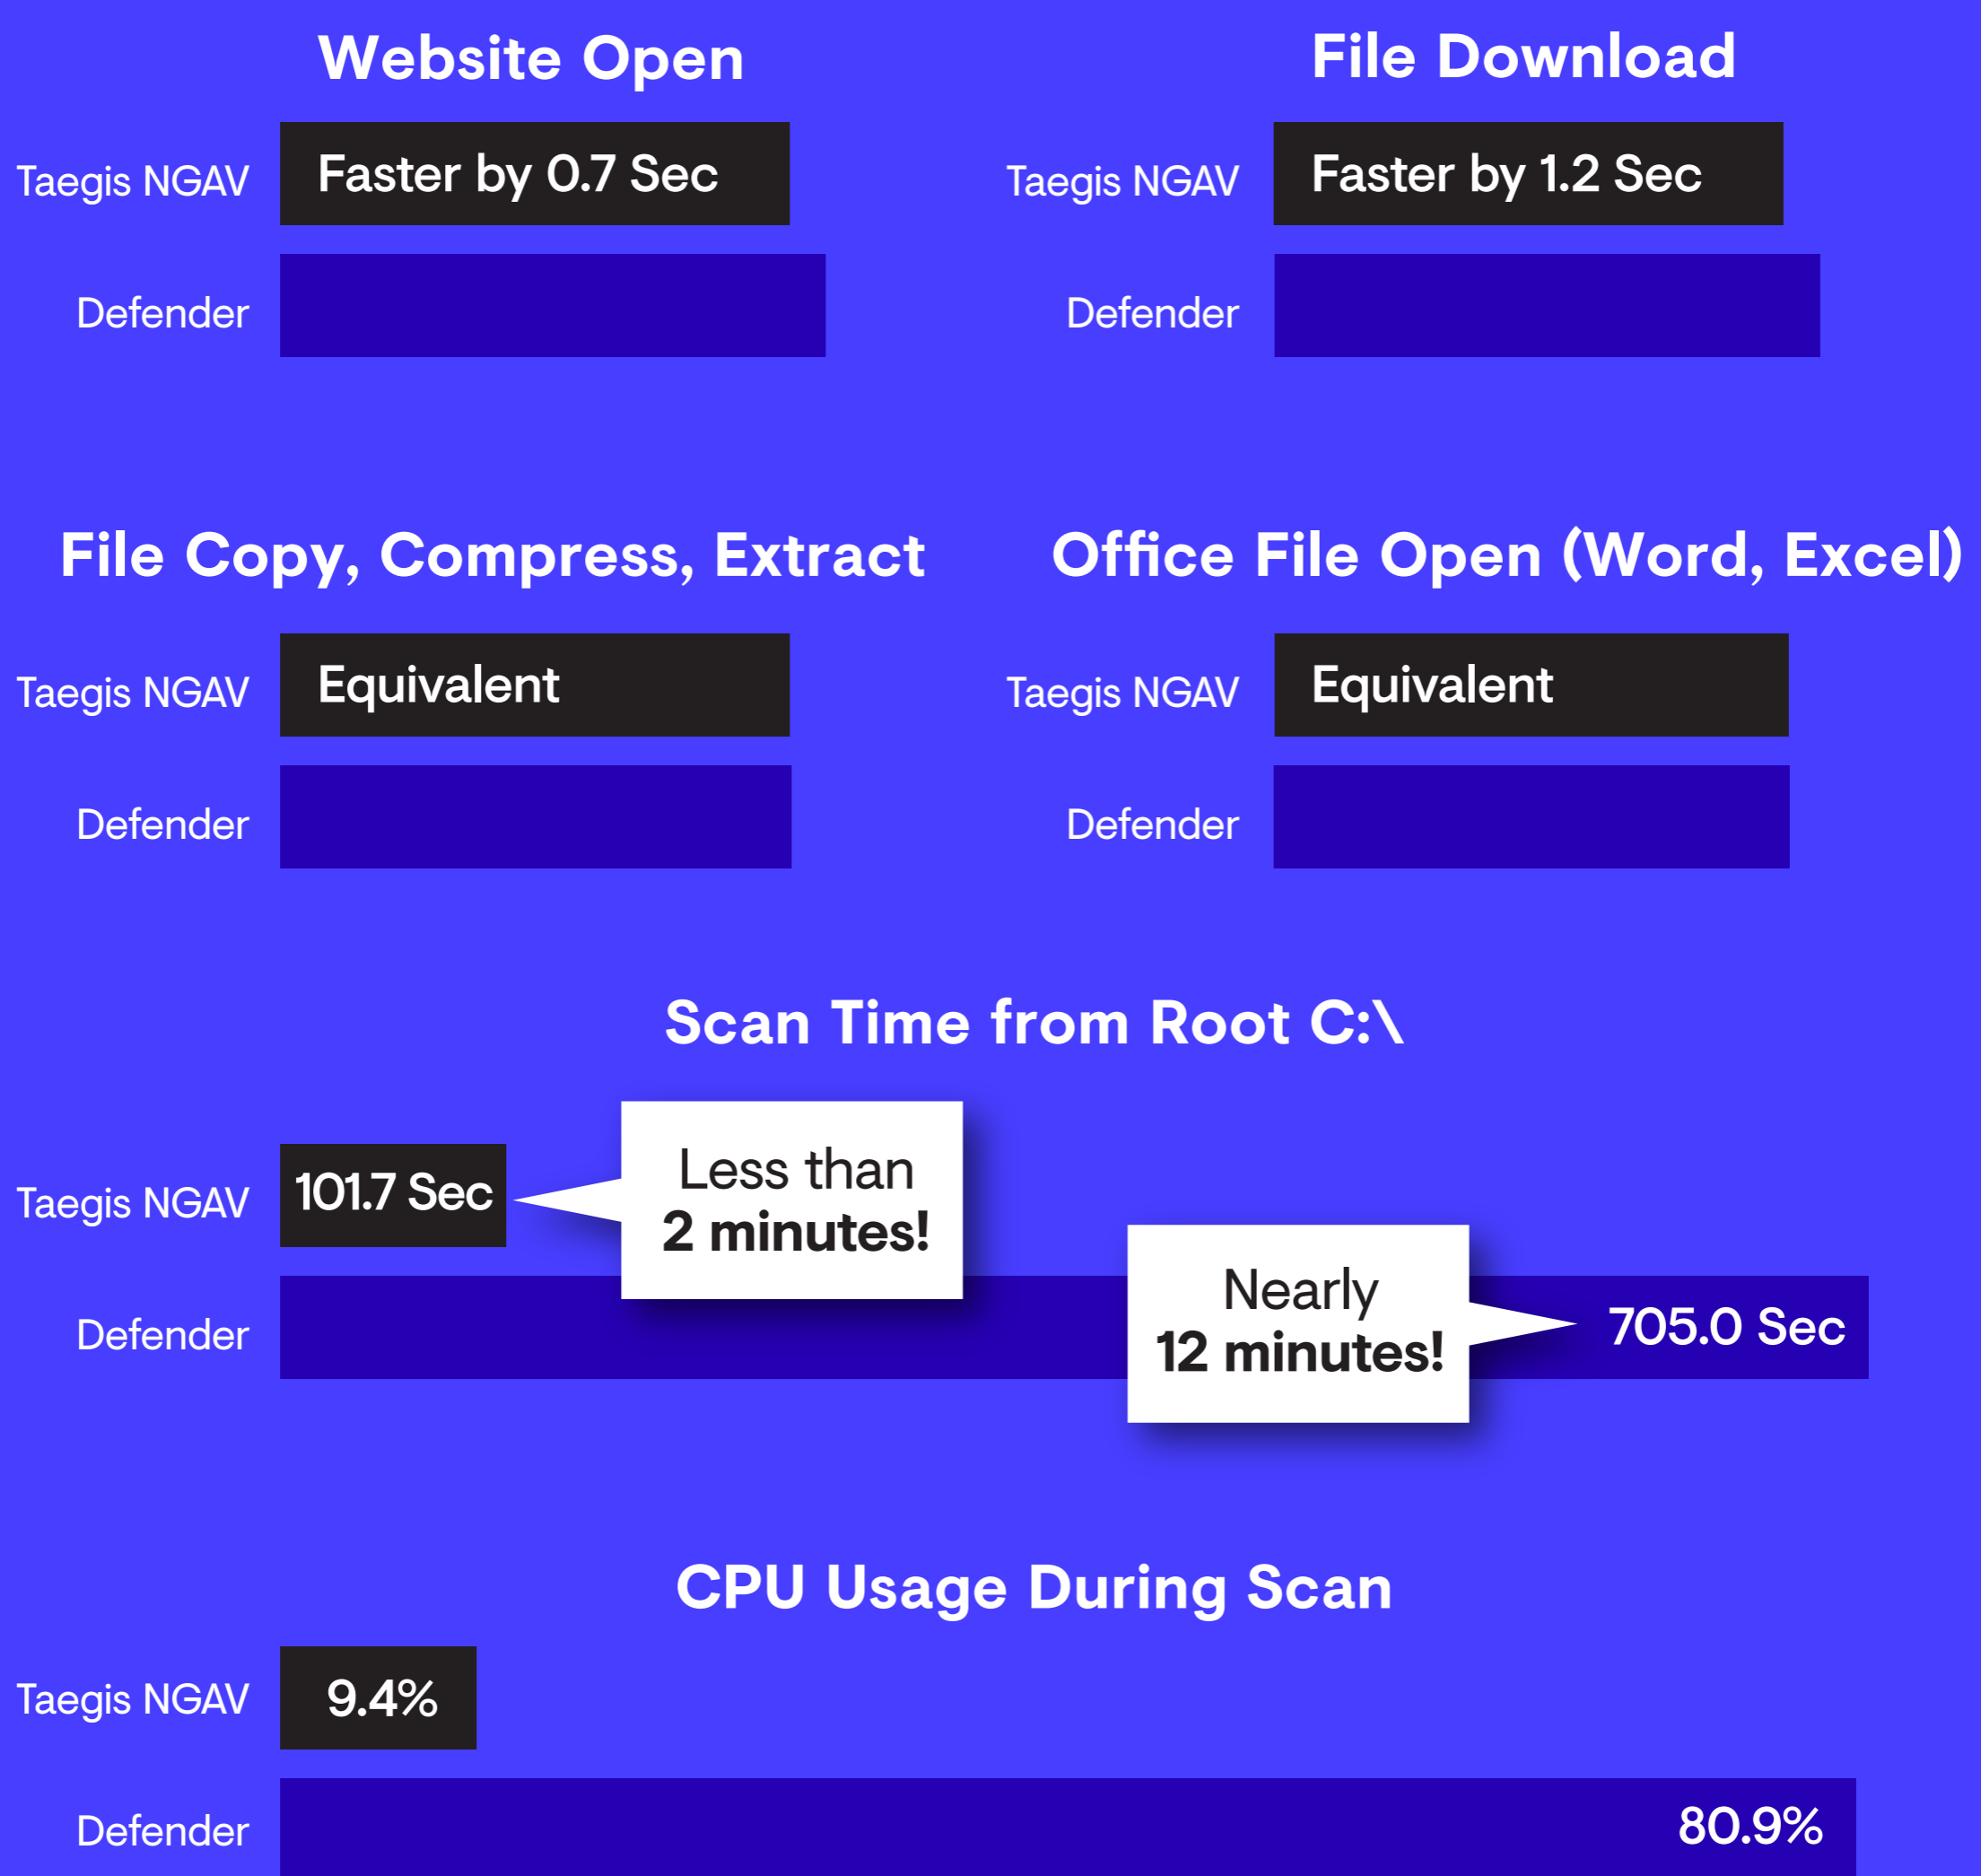

— MRG EFFITAS

1.33% False Positive Detection Rate

“Taegis NGAV was able to avoid all false detection in test cases, where legitimate applications were used in a ransomware-like fashion.”

— MRG EFFITAS

Taegis NGAV System Performance vs. Windows Defender

Security events in context far exceed simply blocking malware.

Prevention + Detection + Response = Winning XDR Strategy

“Taegis NGAV is a mature product, ready to be used in a wide set of deployment scenarios, ranging from small environments to multinational enterprises.”

— MRG EFFITAS
